

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my housework."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

THE FEDERAL EXPLOSIVE LAW.

The Federal Explosive Act prohibits the manufacture, sale, purchase and possession of all explosives and their ingredients, in time of war, without a license. In other words, the dealer must have a license, and the purchaser must have a license. The dealer must keep an itemized record showing the name and address of purchaser, his license number, kind and quantity of explosives purchased, and purpose for which it is to be used. This also compels practically every drug store in the United States to have a license permitting them to have in possession and sell explosive ingredients, and the buyer must have a license when purchasing these ingredients in quantities of an ounce or more, and the dealer must keep the same record as the party who sells dynamite. These ingredients are: Bichromates, Chlorate, Chromates, Nitrates, Nitric Acid, Perchlorates, Perborates, Permanganates, Peroxides and Phosphorus, in their various forms.

This law will be rigidly enforced in the future; it having been in effect since November 15, 1917, and every dealer has had time to familiarize himself with the law and all its details, and no excuse will be accepted in the future. Violation of this act carries a penalty of \$5,000 fine or imprisonment in a Federal prison, or both. A careful and systematic check is being made, by Federal Authorities, of every dealer in the State who handles explosives or ingredients, regardless of location or size. An inspector or some deputy may drop in any day, and dealers should not allow themselves to be caught unprepared.

There is a United States Explosives Licensing Officer in every County, and such dealers as have already procured their license should take immediate steps to do so.

This is considered one of the most important war measures enacted by our Congress, and dealers can not be too careful in making sales of explosives or their ingredients.

You take our own case with the News. The operating expenses for the News for May, 1917, were \$36,740.81, while for May, 1918, they were \$47,825.42, while for June, 1918, it passed the \$50,000 mark. There is an increase of nearly 33.1-3 per cent. for May this year, and more than 40 per cent. increase for June.

In the meantime, a 10 per cent. advance in advertising rates had gone into effect May 1, 1918, but 10 per cent. lacks a lot of making up for an increase cost of more than 40 per cent.

In 1916 the newspapers of the country were paying under 2 cents at the mill for white paper. During the greater part of 1917 the average price was around 2 1/2 cents. For the first six months of this year the federal government fixed the price at three and ten one-hundredths cents, but the manufacturers of paper have appealed from this decision and have also been granted a rehearing before the federal trade commission.

"The manufacturers are practically a unit in declaring that four cents or more will be the price for the last half of this year.

"Now, the figures I have quoted above as to the operating expenses of the News for May and June were made under advantageous paper contracts. With the probability of paper costing us four cents or more, we must look about us. The News white-paper bill, buying paper around three cents, has been averaging about \$20,000 a month. Increase the price to 4 cents, as seems very likely, and there is added about \$7,000 per month for paper alone, without allowing for the 25 per cent. advance in freight rates.

"Now, that is the situation. We

NEWSPAPERS FACE MOST SERIOUS CRISIS

HOW NEWS PRINT AND POSTAL INCREASES ARE MENACING THEIR EXISTENCE.

Birmingham, Ala., June 24.—"The newspapers of this country are facing the most serious crisis of their existence," said Victor H. Hanson, publisher of the Birmingham News, and chairman of the executive committee of the Southern Newspaper Publishers' association.

"I have just come back from Asheville, N. C., where the Southern Newspaper Publishers' association held its annual meeting and I want to tell you the situation is really serious.

"For three solid days nearly a hundred newspaper men—it was the most largely attended meeting in the history of the association—debated and discussed and resolved, trying to find the solution for the problem. The newspapers are up against the proposition of vastly increased expenses along every line, a price for white paper—which is the greatest single expense in issuing a newspaper—nearly double what it was two years ago, increased labor cost, higher prices for metal and machinery, for ink, oil and everything else that goes into the making of a newspaper.

"On July 1, the new postal law, which places a frightful tax on newspapers, went into effect; freight rates have just been advanced 25 per cent., and so on through the list.

"What to do about it all was the burden of the Asheville meeting. It was recognized that newspapers that have been showing a handsome profit are going to show a deficit, while those that have been just a little better than making expenses will have hard sledding to get through it all. "The wisest publishers in the land are racking their brains about how to maintain the quality of their papers and still manage to show a fair margin of profit without raising the price beyond the reach of the average citizen.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson of this place, writes: "For one year I suffered with awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui.

By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133
